International Programs

ACADEMIC INFORMATION

International Plan

The International Plan is a challenging undergraduate academic program that develops a student's global competence within the context of his or her major. It is an optional, degree-long program that integrates overseas experiences, language proficiency, and globally-focused coursework into 31 participating majors (out of 36). It builds on existing undergraduate degree requirements and international opportunities. The IP is intended to be completed within the normal time frame of a four-year undergraduate degree. Completion of the International Plan is recognized by a designation on the student's diploma indicating a commitment to developing global competence as part of the degree, e.g., "B.S. in Electrical Engineering: International Plan."

International Student and Scholar Services

International Student and Scholar Services (ISSS), a unit of the Office of International Education, serves as a resource and advocate for the large and diverse population of international students and scholars. ISSS strives to create an environment where international students and scholars are able to make a well-integrated transition to Georgia Tech through diverse cultural, educational and leadership opportunities. In addition to serving enrolled students, ISSS also provides services to graduated students completing training in their field of study using Optional Practical Training (F-1 graduates) or Academic Training (J-1 students). OIE serves a vibrant community of Exchange Visitors who come to Tech to conduct research, teaching or related scholarly activities. Since 2013, the Exchange Visitors include student interns.
